

# COAL FACT SHEET

## OVERVIEW

### MDM Engineering:

- is a world class engineering company with global experience, specifically in Africa;
- has +200 engineering professionals, who have the capacity to deliver a project within deadline and on budget;
- is supported by a technical team with a combined 311 years experience in designing and building process plants across a range of minerals;
- provides a cost-effective approach to design;
- produces plants that are functional, efficient and durable;
- is transparent with our 'open-book' contracting method, ensuring that any savings are shared with the client.

MDM Engineering Group Limited (MDM Engineering) is a metallurgical and process engineering company which was established in February 2006. On the 13th November 2014 MDM became part of the Amec Foster Wheeler Group.

The company offers a range of services from project evaluation, process design, feasibility studies through to full EPCM or EPC, incorporating the construction of plants and project management.

## COAL TRACK RECORD

The team at MDM Engineering has extensive coal experience:

- completion of 5 coal feasibility studies, 3 of them were bankable feasibility studies;
- construction of 3 metallurgical coal plants, all of which produced above design capacity; and
- overall engineering experience in 24 countries worldwide, and completed 66 projects globally.

NAME	CAPACITY	PROCESS	STATUS	LOCATION	CLIENT
<b>Coal Projects</b>					
Mchenga Colliery	240 Ktpa	Coal preparation plant & screening	LSTK & SS completed 1997	Malawi	Malawi Development Corporation
New Arbor Colliery	490 Ktpa	Coal Screening Plant	LSTK completed 1994	South Africa	Foston
Annandale Colliery	1,5 Mtpa	Coal washing plant	LSTK & BFS completed 1993	South Africa	Annandale Colliery
<b>Coal Studies</b>					
River Energy	tba Mtpa	Line Coal briquetting	DFS complete 2013	South Africa	River Energy JV
Estima (licence 871L)	50 Mtpa	Coal washing and processing plant	SS completed 2009	Mozambique	Camec

**The completion of 5 coal studies, 3 of which were bankable, and the construction of 3 coal plants which produced above design capacity.**

**Two thirds of the earth's surface is water...  
The rest we can process.**
