

## DIAMOND FACT SHEET

### OVERVIEW

MDM Engineering:

- is a world class engineering company with global experience, specifically in Africa;
- has +200 engineering professionals, who have the capacity to deliver a project within deadline and on budget;
- is supported by a technical team with a combined 311 years experience in designing and building process plants across a range of minerals;
- provides a cost-effective approach to design;
- produces plants that are functional, efficient and durable;
- is transparent with our 'open-book' contracting method, ensuring that any savings are shared with the client.

MDM Engineering Group Limited (MDM Engineering) is a metallurgical and process engineering company which was established in February 2006. On the 13th November 2014, MDM became part of the Amec Foster Wheeler Group.

The company offers a range of services from project evaluation, process design, feasibility studies through to full EPCM or EPC, incorporating the construction of plants and project management.

### DIAMOND TRACK RECORD

The team at MDM Engineering has significant diamond experience:

- completion of 7 diamond feasibility studies;
- constructed a diamond plant in South Africa and currently busy with our second one;
- completed studies and a plant for projects in South Africa, DRC, and Botswana; and
- overall engineering experience in 24 countries worldwide, and completed 66 projects globally.

| NAME                    | CAPACITY | PROCESS               | STATUS                          | LOCATION     | CLIENT                   |
|-------------------------|----------|-----------------------|---------------------------------|--------------|--------------------------|
| <b>Diamond Projects</b> |          |                       |                                 |              |                          |
| Cullinan Mill           | 6 Mtpa   | Milling, DMS, Sorting | EPCM current FEED complete 2012 | South Africa | Petra Diamonds           |
| Rovic Diamond Mine      | 480 Ktpa | DMS, Grease           | LSTK Completed 1990             | South Africa | Lenkas                   |
| <b>Diamond Studies</b>  |          |                       |                                 |              |                          |
| Sengamines              | 2.4 Mtpa | DMS, Xray             | PFS completed 2008              | DRC          | First African Diamonds   |
| Jwaneng                 | 800 Ktpa | Crushing, DMS         | PFS completed 2004              | Botswana     | Debswana Diamond Company |
| Ventersdorp Diamonds    | 1.2 Mtpa | DMS, Xray             | BFS & PFS completed 2004        | South Africa | Etruscan Resources       |
| Diamond Land Mining     | 840 Ktpa | DMS, Xray             | PFS completed 1996              | South Africa | Diamond Land Mining      |
| Lindbergh               | 480 Ktpa | DMS, Grease           | PFS completed 1994              | South Africa | Lindbergh                |

**Completion of 7 diamond studies; and currently constructing our second plant in South Africa.**

*Two thirds of the earth's surface is water...  
The rest we can process.*
